

List of software in Free&ALter Soft distributions

Name	Version	Description	Category
ImageMagick	5.1.1	image display, conversion, and manipulation under X	Text or picture processing
SpecTcl	1.1	A Tcl/Tk visual interface builder	Programming languages
TclTutor	0.97	A Tcl/Tk interactive tutorial	Programming languages
X11R6	6.1	X11R6 libraries	libraries
antiword	0.31	show the text and images of MS Word documents	Text or picture processing
apache	1.3.19	HTTP server daemon to provide WWW services + PHP + mod_dtcl	Network tools
ased	2.0.8	A Tcl-Tk IDE	Software engineering
autoconf	2.13	Automatic multi-platform software sources configuration	Software engineering
automake	1.4	Makefile generator	Software engineering
bash	1.14.7	A Bourne (sh) compatible shell	Unix shells
bash	2.04	A Bourne (sh) compatible shell	Unix shells
binutils	2.9.1	Gnu utilities to manipulate binaries and object files	Software engineering
bison	1.28	Gnu parser generator to create compilers	Software engineering
bvi	1.2.0	A vi editor for binary files	Editors
bzip2	1.0.1	Block-sorting file compressor (better than gzip)	Small utilities
cflow	2.0	Print a call tree of a set of a program or a set of programs	Software engineering
communicator	4.76	Netscape Communicator 4.76 + plugin tcl + xswallow	Network tools
cpio	2.4.2	GNU cpio archiving program	Small utilities

cpost	1.4.a	A Nice C/C++ source to PS formater	Software engineering
ctags	3.4	C cross-reference tool	Software engineering
cvs	1.11	CVS - Concurrent Versioning System	Software engineering
ddd	3.2	The Display Data Debugger: A GUI for GDB and DBX debuggers	Software engineering
diffutils	2.7	GNU diff utilities	Small utilities
enscript	1.6.1	convert text files to PostScript	Text or picture processing
fileutils	3.16	GNU file management utilities	Small utilities
findutils	4.1	GNU find utilities (find, xargs, locate)	Small utilities
flex	2.5.4	GNU fast lexical analyzer generator	Software engineering
freerdist	0.91	Remote file distribution client program	Network tools
gawk	3.0.3	GNU Awk text processing utility	Unix shells
gcc	2.7.2.3	The GNU C/C++/ObjectiveC/Fortran77 compiler	Programming languages
gcc	2.95.2	The GNU C/C++/ObjectiveC/Fortran77 compiler	Programming languages
gdb	4.18	GNU symbolic debugger for C and other languages	Programming languages
gettext	0.10.35	GNU internationalization package	Text or picture processing
ghostscript	5.50	PostScript and PDF interpreter and renderer	Text or picture processing
gimp	1.1.18	The GNU Image Manipulation Program	Text or picture processing
gnat	3.11	The GNU Ada 95 Compiler	Programming languages
gnuplot	3.7	Gnuplot plotting 2D/3D package	Mathematical tools
grace	5.1.4	WYSIWYG tool to make two-dimensional plots of numerical data	Mathematical tools
grep	2.4.2	GNU grep Utilities	Small utilities

groff	1.11	GNU groff text formatting package	Text or picture processing
gzip	1.2.4	GNU gzip file compression	Small utilities
htmlconv	0.15	Several html converters	Network tools
indent	2.2.5	GNU C indenting program	Software engineering
lclint	2.4b	Lint tool for statically checking C programs	Software engineering
less	358	text file browser -- less is more than more	Small utilities
libgpp	2.7.2.8	GNU g++ library for gcc 2.7.x.x	libraries
libgr	2.0.13	Library for handling different graphics files.	libraries
libgtk	1.2.6	Gtk/Glib development libraries.	libraries
libslang	1.0.3	Text based color library	libraries
libxpm	3.4j	A library to handle XPM	libraries
libz	1.1.3	library for compression and decompression	libraries
lynx	2.8.2	Text based browser for the world wide web	Network tools
m4	1.4	GNU Macro Processor	Text or picture processing
make	3.77	GNU Make	Software engineering
mc	4.5.51	GNU Midnight Commander unix file manager	Small utilities
mgv	3.1.5	MGv Motif PostScript viewer	Text or picture processing
most	4.8.1	Paging program. Even more than less or more.	Small utilities
mpage	2.4	places multiple pages of text onto a single postscript page	Small utilities
nedit	5.1.1	Easy to learn text editor	Editors
patch	2.5.4	GNU patch utilities	Small utilities
perl	5.004.4	Practical Extraction and Report Language	Programming languages
perl	5.00502	Practical Extraction and Report Language v5.005	Programming languages
postgresql	7.1	SQL2 relational database server	Text or picture processing

psutils	1.17	PostScript utilities	Small utilities
python	2.0	An interpreted, interactive, object-oriented programming language	Programming languages
rcs	5.7	RCS - version control system	Software engineering
recode	3.4	GNU recode conversion program	Text or picture processing
rsync	2.4.6	faster, flexible replacement for rcp	Network tools
rxvt	2.6.3	color VT102 emulator for X	Small utilities
samba	2.0.9	SMB clients and server	Network tools
scilab	2.6	Scilab package for numerical computations	Mathematical tools
sed	3.02	GNU Stream Editor	Small utilities
shutils	2.0	small shell programming utilities	Small utilities
source navigator	5.0	Source code analysis tool and IDE for C, C++, tcl/tk, java, cobol, ...	Software engineering
sketch	0.6.9	A Python-based interactive drawing program	Text or picture processing
swig	1.1p5	Simplified Interface Generator for scripting languages	Programming languages
swish	1.3.2	indexing and query system for html/text	Network tools
tar	1.12	GNU Tape Archiver	Small utilities
tcltk	8.0	A VERY powerfull and easy-to-learn scripting language	Programming languages
tcltk	8.3.2	A VERY powerfull and easy-to-learn scripting language (with tix, tclX, BWidget, Img, Tktable, blt, cgi, expect, snack, tcLex)	Programming languages
tcsh	6.09	Enhanced c-shell	Unix shells
teTeX	1.0.7	TeX typesetting system and MetaFont font formatter	Text or picture processing
texinfo	4.0	texinfo formatter and info reader	Small utilities
textutils	2.0	GNU Text Utilities for manipulating text files	Small utilities
tkBuilder	1.0.2	Construction and testing of interfaces using Tcl-Tk	Software engineering
unzip	5.3.1	Unpacks .zip files such as those made by pkzip under DOS	Small utilities

vim	5.6	Visual editor iMproved with syntax highlighting	Editors
vnc	3.3.2	Virtual Network Computing	Network tools
vtcl	1.2.2	An application development environment for Tcl-Tk	Software engineering
w3m	0.2.1	w3m is a pager/text-based WWW browser that supports tables	Network tools
wdiff	0.5	GNU wdiff, a visual diff	Small utilities
webalizer	2.01	A web server log file analysis tool	Network tools
wget	1.5.3	The noninteractive downloading utility	Network tools
xemacs	21.1.14	The XEMacs way of life	Editors
xfig	3.2.3a	A complete 2D vectorial drawing tool	Text or picture processing
xless	1.7	A X11 text file viewer	Small utilities
xv	3.10a	X based image viewer	Text or picture processing
zlibc	0.9e	On-the-fly uncompression of gzipped files	libraries
